

STATEMENT OF WORK
Pest Management (595)
Florida

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN**Deliverables:**

1. Design documents that demonstrate criteria in Florida NRCS practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Identification of targeted species
 - ii. Control methods (e.g. biological, cultural, chemical, mechanical)
 - iii. Environmental risk assessment of planned control method
 - iv. Mitigation techniques, if necessary
 - v. Plan map and soil map
 - vi. Location of sensitive areas
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the requirements of conservation practice standard Pest Management (Code 595).
3. Documentation of needed operation and maintenance.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.

INSTALLATION**Deliverables**

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Layout and communication of setback requirements for wetlands, water bodies, streams and other pest control-sensitive areas.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.

CHECK OUT**Deliverables**

1. Records of application.
 - a. Extent of practice units applied
 - b. Actual materials/control method/mitigation techniques used
 - c. Application rate, method and timing
2. Certification that the application meets Florida NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
